Professional Summary

Software Engineer and FAST-NUCES student with hands-on internship experience building production-ready, AI-powered web applications. Proficient in full-stack development across modern JavaScript frameworks and Python data ecosystems. Proven ability to transition machine learning prototypes into functional, scalable web services.

EDUCATION

Bachelor of Science in Software Engineering, FAST NUCES, Lahore — Expected 2027

Intermediate in Computer Science (ICS - Physics), Government College University (GCU), Lahore — 2021-2023

SKILLS

Languages: Python, TypeScript, JavaScript, Java, C++
Software & Web Engineering: React, Next.js, Node.js, Express, React Native, Spring Boot, REST APIs, Flask
Databases & Backend Tools: PostgreSQL, MongoDB, SQL, Supabase, Prisma ORM
AI, Data & Automation: TensorFlow, scikit-learn, NumPy, Pandas, Matplotlib, Google Gemini API, n8n, Streamlit
Tools & DevOps: Git, GitHub, Vercel, Postman, Linux, CI/CD, Agile/Jira, JWT, NextAuth

EXPERIENCE

AI-Powered Web Development Intern — Jul-Aug 2025
Nexium — *Lahore, Pakistan*

- Built and deployed an AI-powered web application using Next.js, React, Tailwind CSS, and shadcn/ui featuring integrated AI text generation and automated PDF export systems.
- Developed secure RESTful endpoints utilizing Next.js API routes, MongoDB, and Supabase to handle user authentication, cloud data storage, and AI inference models.
- Successfully delivered three production-ready milestone projects (Quote Generator, Blog Summarizer, Resume Tailor) with full CI/CD deployment pipelines on Vercel.

PROJECTS

LaunchLyft – AI Startup Success Predictor: Built an end-to-end predictive web application using Python, Streamlit, and scikit-learn; engineered advanced feature pipelines and deployed a Gradient Boosting classifier achieving 77.3% accuracy, a 0.774 F1-score, and 0.834 AUC.
CollabCanvas – Real-Time Whiteboard App: Built a collaborative canvas application using Next.js, TypeScript, Fabric.js, and Liveblocks; integrated NextAuth for Google OAuth, Zustand for state management, and Prisma ORM with MongoDB, alongside Google Drive API for cloud storage, data persistence, and conflict resolution.
Mentalyx – Mental Health & Wellness Assistant: Built a web-based wellness application using Next.js, React, Node.js, and Express; integrated MongoDB for secure data persistence, JWT for user authentication, and an AI processing layer to generate personalized symptom navigation insights and visual mood analytics.

Certifications

- AI-Powered Web Development – Nexium Internship — 2025
- SkillEcted Web Development Bootcamps & AI Webinars — 2025
- Microsoft Learn Student Ambassador (MLSA) – FAST NUCES, Lahore — 2024
- Python Programming – GCU, Lahore — 2022
